

Aniruddha Suresh Gokhale

Professor of Computer Science and Engineering & Senior Research Scientist, Vanderbilt University

February 5, 2023

Summary of Research, Teaching and Service Accomplishments

1. **Total Research Funding since 01/2002:** \$34,208,557 of which (a) sponsored research in the role of lead PI: \$7,854,881; as Co-PI: \$15,284,553; as PI for grants managed on behalf of others: \$968,841; and (b) internal grants from Vanderbilt University as PI/Co-PI: \$1,800,282 and original ACCRE cluster funding of \$8.3M where I was one of many investigators.
2. **Student Advising**
 - *Doctoral students graduated:* **Total 23:** 17 as Chair of PhD Committee/Primary Advisor; 6 as Co-Advisor.
 - *Masters students graduated:* **Total 28:** 23 as Primary Advisor, 5 as Second Reader on Thesis Committee.
 - *Doctoral students advising:* 5 primary advisees.
 - *Undergraduate advising:* 30+ Computer Science Junior Computer Science students (Fall 2018–present); 30+ Computer Science students (Spring 2016–Spring 2018); 22 Computer Science students (Fall 2013–Spring 2015); 9 Computer Engineering students (Fall 2009–Spring 2013); 10 Computer Engineering students (Fall 2003–Spring 2007);
3. **Patents awarded [Total = 4]**
4. **Publications [Total = 413]**
 - *Journal Publications:* 63 published or awaiting publication;
 - *Books/Book chapters:* 1 Monograph; 8 Edited books; 27 book chapters;
 - *Conference Publications:* 151 peer reviewed conference publications;
 - *Posters, demos, tutorials and short papers:* 64 peer reviewed;
 - *Workshop Publications:* 78 peer reviewed workshop publications;
 - *Technical Reports:* 21;
 - *Tutorials presented/to be presented:* 9;
 - *Invited/Colloquium Talks:* 29 (panels, industry and university);
 - *Conference, Workshop and Demo Presentations:* 79;
5. **Teaching Highlights**
 - Distributed Systems and Cloud Computing courses for Vanderbilt-2U online masters partnership;
 - Created the CS4287/5287 Principles of Cloud Computing course;
 - Modified and renamed the CS6381 Distributed Systems Principles course;
 - Restarted and modified CS4283 Computer Networks, which will soon be crosslisted with ECE;
 - Taught CS3281 Principles of Operating Systems for many semesters;
 - Teaching evaluations have been more or less on par with school averages for undergrad courses and above average for grad courses;
6. **Professional Service**
 - *Steering committee membership:* 1;
 - *Journal editing:* 1 Editorial board membership; 7 journal guest editorial responsibilities.
 - *Conference Organization:* 4 General Chair; 7 Program Committee Chair; 10 Workshop organizations; 1 PhD forum chair; 3 PhD forum mentor; 3 Workshop/Tutorial Chair; 2 Local Arrangements and Registrations Chair; 2 Publicity Chairs; 1 Publications Chair; 7 Session Chairs; 3 Sponsorship co-chair, 1 Travel grant chair;
 - *Panels:* 32 national/international panels and proposal reviewing responsibilities.
 - *Referee:* 135 journal article reviews; 200 Program Committees;
7. **Prominent Department and University Service**

- Serving on the Appellate Review Board;
 - Led the efforts in creating the departmental broadening participation in computing (BPC) plan;
 - Served on the University Graduate Faculty Council and its Executive Committee;
 - Served on the University Technology Review Committee;
 - Served on the University Faculty Senate and chaired the SPAF committee;
 - Undergrad advising for Computer Science and Computer Engineering students;
8. **Professional Society Memberships:** Senior Member of IEEE and ACM; Member of Usenix and formerly also ASEE.
